

PhUSE pleased to announce Chairs for 2018 US Conference

PhUSE will host its first-ever Annual Conference in the USA from 3rd - 6th June, 2018 at the Raleigh Convention Center, North Carolina. We received overwhelming feedback from many US-based PhUSE members who want to help to make this event a success, following the principles of more than a decade of European Annual Conferences. Out of this group of volunteers, PhUSE picked our US Conference Chairs, who will be responsible for preparing an exciting agenda for this event.

PhUSE is excited to announce that Jim Johnson (Chair), Jennifer True and Terek Peterson (both Co-Chairs) have accepted the responsibilities as Conference Chairs. In the upcoming months Jim, Jennifer and Terek will build and steer a Conference Committee of PhUSE volunteers, who will lead various focused poster and presentation streams at the Raleigh event.

Jim Johnson (Chair)

Jennifer True (Co-Chair)

Terek Peterson (Co-Chair)

Jim Johnson has worked for over 32 years as a statistician, pharmacokineticist, and department head in the pharmaceutical industry at several different pharmaceutical and biotechnology companies. He is currently a senior-level consultant for biostatistics and pharmacokinetics at Summit Analytical. Jim has published numerous peer-reviewed abstracts and articles, and is a frequent presenter at international conferences such as PhUSE.

Jennifer True has worked in the pharmaceutical industry for over 16 years, beginning

her career as a programmer. Since 2015, Jennifer has been head of the GSK programming group for Infectious Diseases and Oncology and acts as the functional lead for S&P for partnerships with CROs. She has been a volunteer with PhUSE since 2014 and has supported several US Single Day Events.

Terek Peterson is a Senior Director of Global Statistical Standards at Chiltern, with over 18 years' experience performing statistical analysis for a wide range of clinical trials. He is an active member of CDISC and PhUSE, where he helps in shaping the industry in various teams, Working Groups or as a conference presenter.

More information on the Conference theme, the announcement of the various Conference streams and other important event details will be shared soon.

We are looking forward to collaborating with such an experienced team of Conference Chairs. Please join us in congratulating Jim, Jennifer and Terek on these important roles.
